June 12, 2014

Time

3:30 PM

Place

JB 359

Title

Muhareb lawfirm

Student

Rana Tabel

Advisor

Dr. David Turner

Abstract

For my Independent Study I was tasked by Muhareb lawfirm to create a running website for them. My job was to design and create a website with a contact us form and create an email account that would direct all emails straight to them. I was also assigned to set them up with a domain name and a server. In order to do all these tasks I had to familiarize myself with CSS and HTML as well as Javascript. The presentation will cover some of the source code, troubles encountered, followed by a brief demo.
