CSE 482 Senior Project Presentation

Date

June 12, 2014

Time

4:00 PM

Place

JB-359

Title

Maptizing

Student

Rana Tabel

Advisor

Dr. David Turner

Abstract

The presentation will cover my senior project which was to build a website for a local company called Maptizing. My job as part of my senior project was to go in and recreate the website that they had originally created. I was to set up the website with a server and get it connected online. For my development process I used more than one technology including: HTML, CSS, JavaScript, and MySQL. As part of my presentation I will present my working design, and go through the process that I went through to get the website running.
