CSE 482 Senior Project Presentation

Date

June 14, 2016

Time

1:00 PM

Place

JB 359

Title

OSMM

Student

Kyle Lovejoy

Advisor

Dr. David Turner

Abstract

The OSMM Money Management team requested an app be build for them for the Android OS and the Apple iOS platforms. I started the Android OS Winter 2016 in CSE 455 with Dr. Conception with my group. After the class a couple of the group members decided to continue working on the app and get the Android OS finished and ready to push to Google. While working on that also worked on the iOS version and building that and getting that ready to push to Apple. I worked on the scroll on the pages as well as the bill splitter app that the clients wanted and put the information in.
