CSE 482 Senior Project Presentation

Date

June 12, 2014

Time

12:30 PM

Place

JB 359

Title

Office Tactics

Student

Matthew Hawkins

Advisor

Dr. David Turner

Abstract

Office Tactics is a PC video game designed over the last three years by various students in one of the computing majors. For most of the project history I function as the project lead. I will will present the final CSUSB version of this game; showing of the completed set of levels, with original audio, music, and other assets, intelligent AI, and tight game play. This game will be available to download from CSUSB at a later date.
