CSE 482 Senior Project Presentation

Date

December 12, 2014

Time

1:00 PM

Place

JB 359

Title

Responsive Website

Student

Inzunza Jose

Advisor

Dr. Turner

Abstract

My presentation will be on my job that I had at the College of Extended Learning at CSUSB (CEL). During my time working at CEL, I was in charge of developing a responsive website for the programs they offer. I developed the site using: HTML, CSS, jQuery, javascript, ajax, an a online form system called wufoo and University web accessibility standards. During my presentation I

will present a brief resume of each of the stages of the project: designing, developing and user testing. At the end of the presentation, I will provide a demonstration of the site.
