Title

Storytelling and Games: A New Genre of Gaming

Student

Leigh-anna Griswould

Abstract

There has been a rise in games focusing more on stories, characters, and the choices you make in the game that affect the game's outcome. My goal for my Senior Project is to present and discuss these games and elements of these games while also discussing a similar genre of gaming, Visual Novels. I will also present a little bit of my game that is currently in production.
