JB 359

Title

Tee Claw

Student

Rana Tabel

Advisor

David Turner

Abstract

Tee Claw is a revolutionary product that allows golfers to hit a golf ball from a real tee when playing on an artificial mat. Their Motto is "Practice like you play!" My Internship was to help create and maintain their social media pages. From Facebook to Twitter and Instagram. We also created a website to make it easier for customers to contact. As part of my internship I also helped with their advertising, whether it was flyers or events.
