June 13, 2014

### **Time**

3:30 PM

### **Place**

JB 359

### **Title**

Automated Vending Retail

### **Student**

Jonathan Gomez

### **Advisor**

Dr. David Turner

### **Abstract**

I will be presenting my work as a system administrator and IT specialist at AVT. I will describe my daily work and a few of the projects I have worked on these past few months. Some of these project include building optimizing a Linux image for the Raspberry Pi. Working on the backend of our proprietary content management system as well as the daily duties which entail everything from help desk to service calls.
