Date

June 13, 2014

Time

12:30 PM

Place

JB 359

Title

CSUSB Police App

Student

Jose Inzunza

Advisor

Dr. David Turner

Abstract

In the Spring quarter of 2014 I built a mobile app that will be used by the CSUSB Police. The application is build with PHP, HTML, CSS, JQuery Mobile and Phonegap. During the presentation I will talk about the advantages of using phonegap, the problems that I had during the process of developing the app and the functionalities. Finally I will have a demo of the app working on Android and IOS devices.
