CSE 575 Internship Presentation

Date

December 11th, 2014

Time

5-5:30 pm

Place

JB-359

Title

Internship at Curtiss-Wright

Student

A. Sean Lopez

Advisor

Dr. Concepcion

Abstract

This seminar will cover the internship at Curtiss-Wright from August to December. The internship was in the Aviation and Electronics Department working as a Software Engineer. Duties included software development, verification, and analyses of high- and low-level requirements while working on a DCU for an AWACS unit. This seminar will discuss the different methodologies used in their software development, the standards used in the industry, and other aspects of the internship at Curtiss-Wright.
